

Travel Consulting
ERD

- Assumption:
1. The model reflects each team's current region assignment only; historical reassignment of teams to different regions is not tracked.

DVD Rental
ERD

- Assumption:
1. The model assumes each DVD copy's rental cost is stored per copy.
 2. Member full name and rented DVD's title/daily rental cost are not duplicated in the rental table; they are retrieved via foreign key joins to avoid redundancy.
